Appl. No. 10/658,007  
Atty. Docket No. 9027  
Amdt. dated June 22, 2005  
Reply to Office Action of January 3, 2005

### REMARKS

Claims 1-24 are now in the case.

Applicants appreciate and acknowledge the mention by the examiner that all claims are allowable.

Applicants have amended the specification and the drawings to correct minor typographical errors.

The office action questioned "what is the name of element numbers 160 and 260."

Applicants respectfully submit that as discussed, *inter alia*, at page 6, lines 23-25, reference number 160 designates the left side of the housing 60 and that reference number 260 designates the right side of the housing 60.

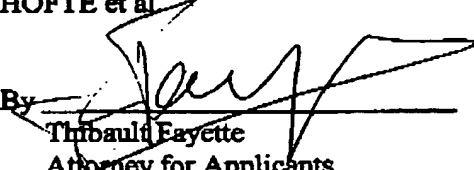

Consequently, it is Applicants' position that no further amendment is needed.

In view of the above, reconsideration and withdrawal of the rejections are therefore respectfully requested.

It is submitted that all the claims are in condition for allowance. Early and favorable action on all claims is therefore requested.

If the next action is other than to allow the claims, the favor of a telephonic interview is requested with the undersigned representative.

Respectfully submitted,  
HOFTE et al
